

Construction Meeting & Public Art Review

May 14, 2018

Tempe

Making waves in the desert

The background of the slide features a series of concentric, hand-drawn style circles in shades of blue and yellow, creating a dynamic, swirling effect that frames the central text.

Introductions & Purpose

Presentation Overview

- Project & timeline review
- Park & Fire Station visual preview
- Public art review
- Construction process overview
- Next steps

Project Review

- Fire Station #7 & Estrada Park - separate, yet concurrent projects
- Park improvements
- Project Partners
 - Arrington-Watkins Architects & Norris Design
 - Resident & Parks Board member
 - Caliente Construction

Timeline Review

Public Art Review

PUBLIC ART

Arizona artist Mary Shindell

MFA, Drawing, Arizona State University

BFA, Painting, Northern Arizona University

Past Public Art Commissions:

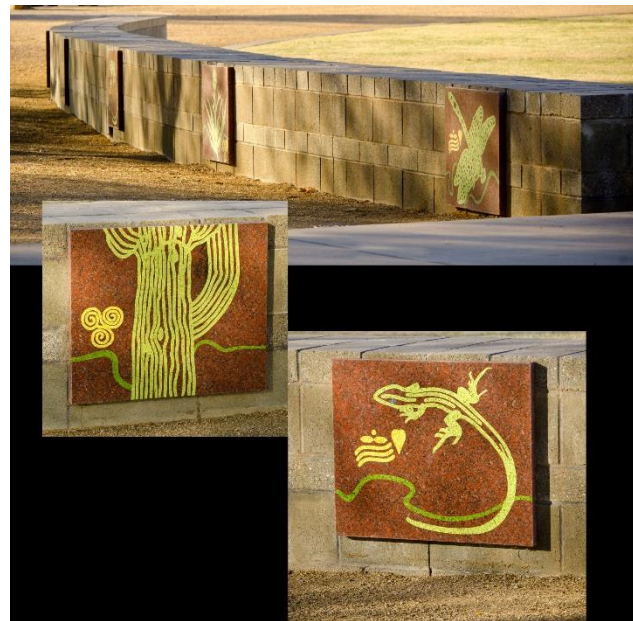

Valley Metro

City of Goodyear

City of Phoenix

Scottsdale Public Art

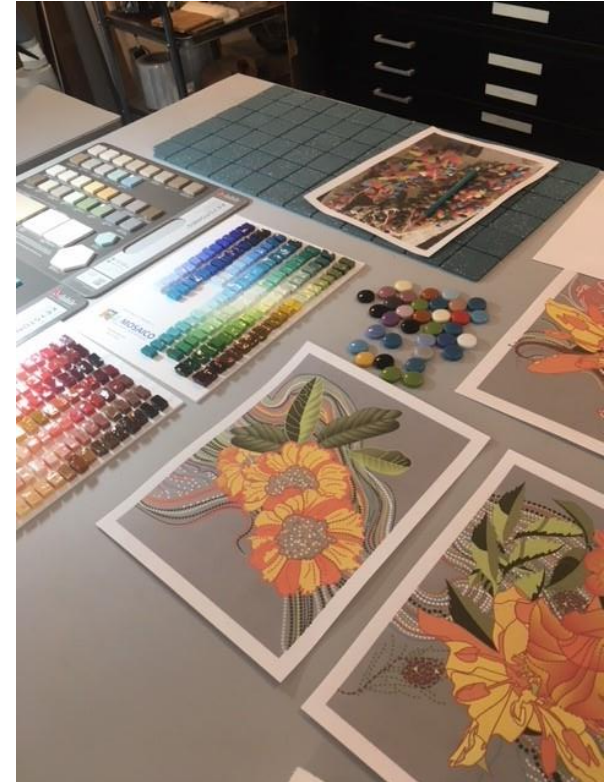

Chandler Arts Commission

PUBLIC ART

LithoMosaic is made from the assemblage of small pieces of colored glass, stone, or other materials known as tesserae. The tesserae may be square, round, irregular, or cut into a specific shape.

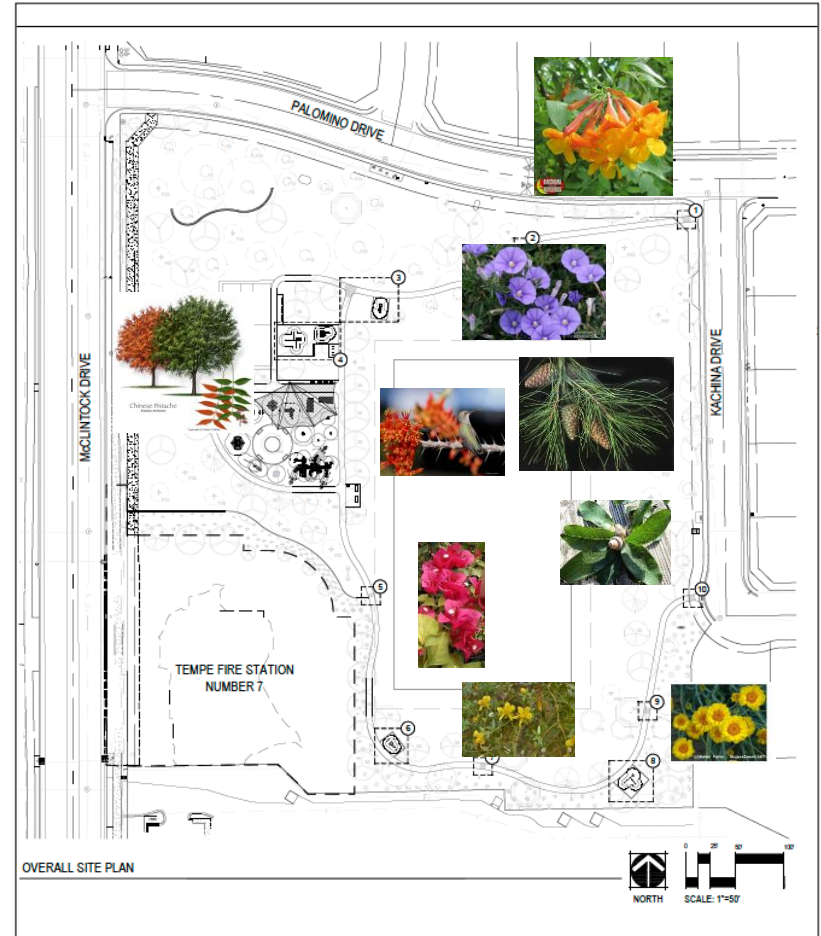

Each piece is hand-placed by the artist on a mesh backing. The LithoMosaic is then placed into the concrete path during the construction process.

PUBLIC ART

Botanicals from the neighborhood such as Bougainvillea and Marigolds along with plants included in the park landscape design are combined to become colorful mosaic panels placed in the pathway.

The background of the slide features a series of concentric, hand-drawn style circles in shades of blue and yellow, creating a dynamic, tunnel-like effect that frames the central text.

Construction Process Overview

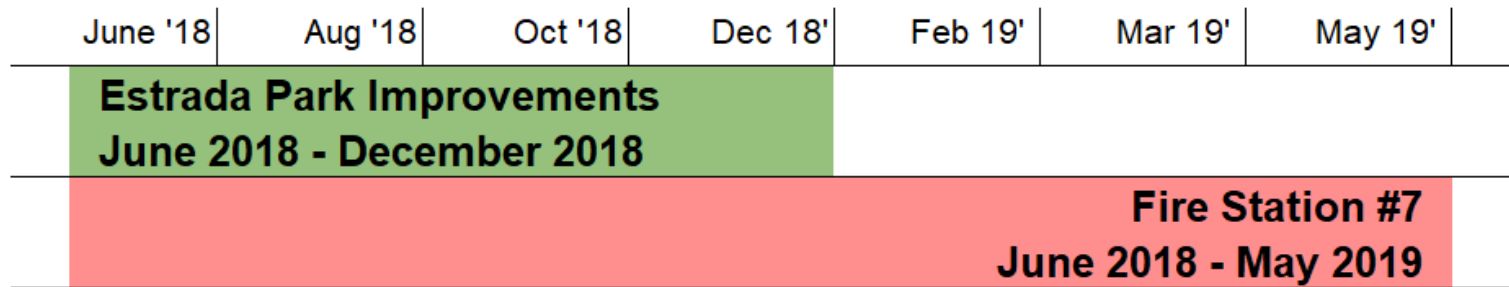

What to Expect

- Overall Scope
- Phasing
- Impacts of Construction

Phasing & Timeline

- Construction on Fire Medical Rescue Station 7 and improvements at Estrada Park is anticipated to begin the week of June 4.
- Phase I: June 2018 – December 2018
- Phase II: January 2019 – May 2019

Phase I

June 2018 – Dec 2018

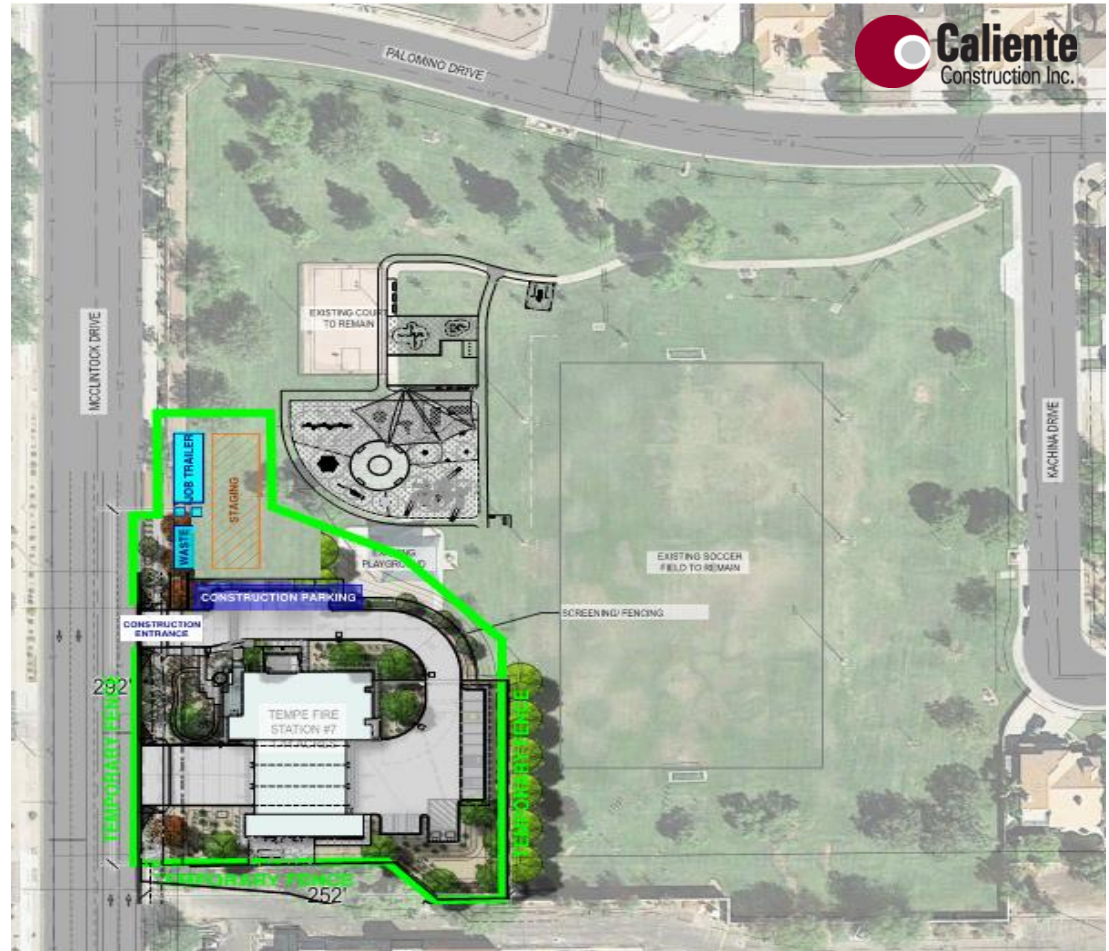

- Project Scope
- Sequencing of work
- Impacts of Construction
- Hours of operation
- Contact information

Phase II

Jan 2019 – May 2019

- All park amenities complete and open to the community
- 95% of overall park complete
- All construction activities confined to Fire Station

An aerial photograph of a park area. In the center is a large, vibrant green grassy field. To the right of the field, there are two basketball courts: one with a blue backboard and hoop, and another with a red backboard and hoop. A paved path winds through the park. Surrounding the park are various urban buildings, including a large white commercial building with a flat roof on the left, and residential houses with red-tiled roofs in the bottom left and right corners. A multi-lane road runs along the bottom and right sides of the park. The word "Questions?" is superimposed in large white text over the center of the image.

Questions?
